

## Recommended Guidelines for Accessibility and Built Environment from Other Jurisdictions

Guideline Document	Description	Creator
<a href="#">Facility Accessibility Design Standards</a>	<p>These standards were published in 2007, and are applied to newly constructed and/or renovated City of London-owned, leased or operated facilities. Disability organizations provided feedback to draft these standards. Many municipalities and organizations contacted the City of London requesting authorization to adopt or adapt the standards for use in their communities (see below).</p>	City of London, Ontario
<a href="#">Facility Accessibility Design Standards</a>	<p>These standards were published in 2015, are applied to all new and/or renovated City-owned, leased or operated facilities. The City of London Facility Accessibility Design Standards was used as a template for the document.</p>	City of Mississauga, Ontario
<a href="#">Facility Accessibility Design Manual</a>	<p>These standards were published in 2015, and apply to all newly constructed and/or renovated facilities that are owned, leased or operated by the City of Guelph. The City of London Facility Accessibility Design Standards was used as a template for the document.</p>	City of Guelph, Ontario
<a href="#">Building for Everyone: A Universal Design Approach</a>	<p>This series, published in 2012, provides comprehensive best practices on designing, building and managing buildings and spaces so they can be readily accessed and used by everyone, regardless of age, size, ability or disability.</p>	Centre for Excellence in Universal Design, Ireland
