(C) 2022—Destination BC Corp. All rights reserved. No part of this guide may be reproduced in any form or by any means, electronic or mechanical, without permission in writing from Destination BC. This guide is produced to provide information to assist tourism operators in British Columbia. Destination BC does not endorse, recommend or assume any liability for any of the operations or organizations referenced in this document. **Super, Natural; Super, Natural British Columbia; HelloBC** and **Visitor Centre** and all associated logos/ trade-marks are trade-marks or Official Marks belonging to Destination BC Corp.

1. Introduction

The Destination BC Open Pool Co-operative Marketing Partnerships Program (the Co-op Program) is an application-based program that provides co-operative, consumer focused marketing and promotion support to Community Consortia, Sector Organizations, or approved Individual and Paired Communities in British Columbia.

The Co-op Program was developed in 2015 based on recommendations from a cross-section of stakeholders and Destination BC's Tourism Marketing Committee—an industry-based advisory committee with representatives from all regions across BC. Input for the program was also provided by participants from over 20 community consultation sessions across the province. A review of the Co-op Program was conducted between September 2018 and June 2019 to ensure it continues to

align with Destination BC's priorities and changes within our tourism ecosystem. The program review included consultation with current program participants, as well as Destination BC staff. The results of the 2018/19 review concluded that the Co-op Program was working well and did not require substantial amendments. Identified amendments were incorporated into the program for the 2020/21 year.

Each year, the program staff evaluate opportunities to further align the Co-op Program with the strategic objectives of Destination BC. Through the evolving circumstances that the tourism industry faces due to COVID-19 and its impacts, we recognize that our Community and Sector partners in the Co-op Program continue to experience further complications, including staffing issues and increased demands on your time. We also acknowledge the additional complexity and effort involved in working through extraordinary environmental events.

Destination BC will continue to provide support through the Co-op Program to ensure the strategic partnerships and collaborative efforts that have been built over the last 7 years continue. After careful consideration, Destination BC will return to the annual application process for 2023/24 funding with regular program parameters in place.

The following program parameters will return for the 2023/24 funding cycle:

- **All applicants (new and returning) must submit an application. Completed applications are due November 30, 2022 at 4:30pm PST.** Early submissions are strongly encouraged. Late applications will not be accepted. Draft applications may be sent to coop@destinationbc.ca for brief feedback and guidance.
- The matching funding requirement will return to the program; applications must propose how matching funds will be provided by applicant(s) if funding is provided by Destination BC. If providing matching funding poses a significant concern, please contact program staff to discuss. See [Section 6.2](#) for more information.
- Funding requests must be for a minimum of \$20,000, to a maximum of \$250,000, per year. (Pre-approved paired community and single community applications are eligible to apply for a lower amount.)
- Applications will be collectively reviewed and evaluated based on merit. Evaluation criteria are listed in [Section 6.3](#).

2. Program Goals

Goals

- Drive consumer demand and increase tourism revenues by investing resources where and when capacity exists.
 - The Co-op Program supports the provincial strategy to sustainably grow the visitor economy through innovative marketing and to increase tourism revenues which provide social and economic benefits for residents of British Columbia.
- Leverage private and public funds to maximize marketing impact.
- Create deep collaboration to enhance our global competitiveness and support necessary capabilities such as a strong provincial tourism brand (*Super, Natural British Columbia®*), shared data and content, and industry digital readiness. The program was created to enable groups that share common interests and common marketing goals that align with provincial tourism priorities to leverage both private and public funds to achieve greater marketing impact in driving tourism revenue.
- It continues to drive industry collaboration, align industry marketing efforts to provincial and regional strategies, and to connect industry to the provincial brand, building brand equity through all provincially funded marketing initiatives.

3. Program Funding Model

Destination BC has two funding pools: Open Pool and Reserved Pool.

| The guidelines in this document are specific to the Open Pool of funds.

1. Open Pool

An Open Pool of funds available to all eligible applicant groups on a competitive basis as per the guidelines outlined in this document.

2. Reserved Pool

A Reserved Pool of funds specifically earmarked for strategic marketing priorities that are fundamental to the provincial brand. This funding is available only to the specific recipients listed in [Appendix 2](#).

4. Open Pool Program Requirements and Criteria

The following program requirements and criteria should be adhered to. However, consideration will be made for special circumstances outside of the requirements and where a strong rationale for doing so is provided.

4.1 Eligible Applicants

All eligible applicants must be in good standing with the Province of British Columbia. Eligible applicants fall in three categories:

COMMUNITY CONSORTIUMS

- Consortia (clusters) of three or more eligible Communities.
 - Consortia should be developed based on a strong unifying theme. Some Consortia or Communities may already be geographically defined by an existing Destination Marketing Organization (DMO).
- Community definition:
 - A geographic area with a Destination Marketing Organization (DMO), or where a DMO does not exist, a municipal or village council, or Indigenous community, or regional district. For further information, please see the [Program FAQs](#).

INDIVIDUAL OR PAIRED COMMUNITIES

Individual or two paired communities and/or Community Destination Marketing Organizations where there is not the opportunity to form Community Consortia (three or more).

Pre-approval is required to apply as an Individual or Paired community. Destination BC will not evaluate, or provide funds, to Individual or Paired Community applications that have not received pre-approval.

Please contact us at coop@destinationbc.ca to determine if your communities are eligible.

TOURISM PRODUCT/EXPERIENCE SECTORS

- Province-wide sector associations, societies, or consortiums with representation of province-wide (where it exists) experiential, market-ready tourism product.
 - A list of current sectors can be found in [Appendix 4](#).
- Sector marketing campaign activities should encourage participation from all sector-related stakeholders, not just members of the sector organization.

VANCOUVER
Photo: Destination Vancouver, Kindred & Scout

4.2 Managing Duplication of Effort

Destination BC's intent for the Co-op Program is to ensure there is no duplication of effort in projects that utilize Open Pool and Reserved Pool co-operative marketing funds. Applicants should contact Destination BC for direction on any perceived overlaps or redundancy.

The following definitions have been created to assist in clarifying the unique focus of organizations:

COMMUNITY CONSORTIUMS

- Community Consortia should focus their co-operative marketing efforts on the unique selling propositions that link participating communities together.
- Consortia that have a focus on only a single product experience should contact the appropriate Sector association to ensure minimal overlaps and/or join forces with the Sector.

SECTOR ORGANIZATIONS

- Sector organizations should focus their co-operative marketing efforts on promoting product/experience sectors with a primary sector message to a sector audience about the sector experience.

- There should be no overlap between provincial and sub-provincial campaigns.

-If a provincial sector and a sub-provincial sector organization want to focus a campaign on their particular area, then the sub-provincial campaign should be included as a subset of the provincial campaign.

-If no provincial sector organization exists, then sub-sector stakeholders should work through a Community Consortium or RDMO on co-operative marketing campaigns.

For a list of sector associations working with Destination BC, please see [Appendix 4](#).

REGIONAL ORGANIZATIONS

Regional DMOs, under the Reserved Pool, should focus their co-operative marketing efforts on promoting Touring & Exploring programs, with the product focus on journeys that encompass several destinations and activities over multiple days throughout a large geographical area.

Destination BC will not approve projects that overlap or are considered redundant. Overlapping campaigns, (e.g. Community Consortium campaign that promotes a specific Sector, or vice versa), should coordinate activities and have representation from each other as partners or join forces as applicants. See [Appendix 3](#) for a list of organizations that should be contacted.

OTHER DESTINATION BC PROGRAMS

Activities approved under the Open Pool may not be eligible for financial support through other Destination BC programs. Examples of other programs include the Travel Media Relations' Visiting Journalist Program and various projects led by our Global Brand and Content, Visitor Services and Research & Analytics teams.

4.3 Eligible Activities and Costs

Program funding is intended to support new or expanded research-based consumer marketing activities in primarily short-haul markets (BC, Alberta, and Washington). Co-op funding is available to facilitate a broad range of integrated, consumer-focused marketing activities/campaigns that work to increase tourism revenues in British Columbia and strengthen and build the *Super, Natural British Columbia* brand, essential to our collective success.

For clarification on items not listed below, please contact program staff.

ELIGIBLE ACTIVITIES

DIGITAL READINESS

- Conduct work on the consortium or sector website to improve:
 - Website search engine optimization
 - Website usability, mobile and guest experience
 - Website accessibility
- Conduct a digital audit of the consortium or sector website, social media channels, and/or consumer email marketing program to help identify priority areas to improve
- Create and implement a digital marketing strategy for the consortium or sector.

BRAND-ALIGNED PHOTOGRAPHY AND VIDEO CREATION

Eligible Expenses:

- Photography and B-roll videography shoots to create new photos and/or footage for use in future marketing activities. Specifically, Destination BC will cover production and travel cost for the production supplier and models, fees for models, and up to 50% of eligible travel-related and accommodation expenses for one representative to escort photographers and videographers if needed. Destination BC reserves the right to deny travel-related and accommodation costs deemed excessive or unwarranted.

Important Considerations:

- Destination BC strongly recommends working with a production supplier who has been previously briefed on or whose visual approach aligns to the provincial destination brand, *Super, Natural British Columbia*; this will increase the ability for Destination BC and other tourism partners to use the photography and video materials to promote your marketing messages through our marketing channels. Please contact brand@destinationbc.ca for more information or support.

- Destination BC strongly encourages participants to include third-party usage rights and name Destination BC Corp. as a licensee in your agreements with production suppliers; this allows your photography and videography to be added to the BC Content Hub and amplified by other partners, including Destination BC and global travel media and travel trade. At minimum, Destination BC requests that participants ensure any models or other individuals included in the photography or video have signed a Destination BC [Model Consent Release form](#), which allows Destination BC to share your content on social media and other channels.
- Investments in this tactic with a total cost (Destination BC and applicant contributions) of \$30,000 or more will require a mandatory planning and alignment discussion with Destination BC staff. The planning session may be scheduled after the Funding Notification letter has been issued in January 2023. Destination BC will withhold its contribution to the costs of acquiring content should this consultation not take place.

Destination BC strongly encourages participants investing in photo and video production to consider how you will accurately and authentically represent the diversity of British Columbia's population in the materials you produce. This should be considered at each stage of the project, and is especially important during the foundational planning stages. It includes inclusive marketing best practices such as:

- **Integrating lived experience into your production process.** Consider who is included and has influence in the planning for your shoot, as well as both in front of (models) and behind (production suppliers) the lens. This requires actively creating spaces where those with lived experience feel safe to share and have opportunities to shape the process.
- **Considering how each stage of the process affects representation.** For example: how does your brief set the foundation for inclusion? How can props, styling, and staging be more authentic? How can the editing process avoid erasure? Inclusion comes from a foundational and intentional series of decisions.

- **Improving inclusive representation.** Learn, avoid and actively challenge common (positive and negative) stereotypes related to those being represented. Avoid tokenization (i.e. having one visibly “diverse” person in a “non-diverse” group). You have the opportunity to challenge the default lens or conventional representation used in destination marketing by being thoughtful about who’s included and the context of the image (e.g. by asking who is the focus of the photo? Who is in a leadership role?)

For more information and support on incorporating inclusive marketing visual best practices, contact brand@destinationbc.ca.

CONTENT MARKETING ACTIVITIES

Eligible Expenses:

- Creation of new digital content for a specific marketing purpose, including blog posts, content partnerships, marketing videos, vertical stories (i.e. for participation in Destination BC’s BC Story Network program), and design and development of a consortium landing page or consortium campaign microsite.

Important Considerations:

- Where relevant (i.e. video content) Destination BC strongly encourages participants to include third-party usage rights and name Destination BC Corp. as a licensee in your agreements with content creators; this allows your content to be added to the BC Content Hub and amplified by other partners, including Destination BC and global travel media and travel trade. Please see [page 23](#) for specifics on licensing terms.

At minimum, Destination BC requests that participants ensure any models or other individuals included in the photography or video have signed a Destination BC Model Consent Release form, which allows Destination BC to share your content on social media and other channels.

- Destination BC aims to share content in our marketing channels that promotes safe and responsible travel in British Columbia. For more information about how to make your content shareable with Destination BC, [see this checklist](#).
- Landing pages and campaign microsites that serve as a call-to-action for marketing activities should prioritize mobile-first, or at minimum, meet standards of mobile-friendliness to ensure a positive user-experience.

See [Appendix 6](#) Resources for more information.

INCLUSIVE MARKETING

As destination marketers who share the places, stories, cultures, and experiences of British Columbia with the world, we have an opportunity and a responsibility to represent the diverse population of BC accurately and authentically to domestic and global audiences. Destination BC is in the midst of its own inclusive marketing journey, and we support the use of co-operative marketing fees by participants to help them take positive steps towards becoming more inclusive marketers so that we are learning and growing together as an industry.

Eligible Expenses:

- Working with certified/recognized DEIA or inclusive marketing consultants to undertake an inclusive marketing audit
- Working with certified/recognized DEIA or inclusive marketing consultants to develop an inclusive marketing strategy or action plan

We encourage participants considering this tactic to connect with the Destination BC team to discuss; please contact us at brand@destinationbc.ca.

SOCIAL MEDIA

Eligible Expenses:

- Social media program execution, including community management, social outreach or listening, platform licensing fees to participate in the UGC Partnership Network (see below and [page 24](#)), fees to work with influencers and content creators, fees to hire contractors to manage social media channels, and analytics. Note: if you are considering influencers as a tactic, any influencer trips approved under the Co-op Program may not be eligible for additional financial support from other Destination BC programs (i.e. the Visiting Journalist Program).

Important Considerations:

- The UGC Partnership Network is a shared social media content curation program built on the CrowdRiff platform, which allows Destination BC and other participating partners to see and access the user-generated content you have curated. Please contact the Co-op Marketing team regarding participation in the program using co-op funds.
- Destination BC will pay up to 50% of eligible travel-related and accommodation expenses for one representative to escort influencers if needed. Destination BC reserves the right to deny travel-related and accommodation costs deemed excessive or unwarranted.

PAID ADVERTISING

Eligible Expenses:

- Delivery of promotional marketing messages including print, radio, television, out-of-home, paper direct mail (including postage, list rental), and digital advertising (email marketing, search engine marketing, paid social media, display, including image and video, and native advertising).

PRINT/ONLINE COLLATERAL

Eligible Expenses:

- Brochures, rack cards, flat sheets, guides, maps, etc.

TRAVEL MEDIA RELATIONS ACTIVITIES

- Pre-approval by Destination BC's Travel Media Relations team is required. If you are considering this tactic, please note that travel media relations activities approved under the Co-op Program are not eligible for financial support under the Visiting Journalist Program.

CONSUMER SHOWS

Eligible Expenses:

- Booth registration fees, basic booth accessories (power, table, chair, carpet), and show materials (pop-up banner, collateral, etc.).

Important Considerations:

- Destination BC will pay up to 50% of eligible travel-related and accommodation expenses for up to two representatives to staff booths at consumer shows, provided it is aligned to the project being funded. The following are considered travel-related and accommodation expenses:

- Airfare (economy)
- Hotel/motel accommodation
- Meal allowances* and
- Ground transportation (e.g. vehicle rental, taxis, mileage*).

*Program staff can provide a current Government of British Columbia per-diem rate sheet detailing mileage rates and meal allowances.

- Destination BC reserves the right to deny travel-related and accommodation costs deemed excessive or unwarranted.

Consortiums approved to attend consumer shows must coordinate attendance with any Regional DMO or Sector presence at the same show.

MARKET RESEARCH

Eligible Expenses:

- Consumer-focused market research related to program execution and relevant measurements that will allow the consortium to make informed marketing decisions. Pre-approval by Destination BC's Research & Analytics team is required.

MARKETING TACTIC COORDINATION FEES

- If the applicant's current staff and infrastructure are insufficient to execute program activities, Destination BC may permit the applicant's use of up to 20% of Destination BC co-op funds towards coordination of the approved marketing tactics, provided:
 - An external contractor or organization is hired; or
 - One of the three or more Partner organizations will implement the program on behalf of the entire Applicant group.
- Coordination Fees paid by Destination BC must be matched by the Consortium.
- The Consortium may choose to allocate greater than 20% of their contribution of funds to marketing coordination.
- Coordination Fees must be transparent to partners and businesses.

For more details on Coordination Fees, contact coop@destinationbc.ca.

QUALICUM BEACH
Photo: Jordan Dyck

4.4 Ineligible Activities and Costs

The following activities and costs are not eligible for reimbursement:

- General administrative costs such as salaries, office expenses, business cards, rent, and other normal costs of business incurred by the proponent, or firms represented by the proponent
- Costs associated with developing and submitting applications
- Costs associated with developing strategic plans other than related to digital readiness and inclusive marketing as outlined in [Section 4.3](#)
- Travel trade activities
- Product development or industry development
- Stakeholder engagement or membership drives
- New brand development
- Non-consortium campaign website development
- Website hosting fees other than for “Call to Action” URLs
- Unauthorized travel costs
- Capital costs for equipment or software purchases
- Capital costs associated with marketing tactics (such as billboard or signage installation, vehicle leasing, brochure display racks)
- Rental or lease of equipment or facilities, except as it relates to the hosting of pre-approved project related events (such as media events)
- Contra or in-kind contributions, including but not limited to: accommodation, transportation, meeting space, admissions and passes, etc.
- Applications specific to bidding on and hosting sporting events and the Meeting, Conventions, and Incentive Travel (MCIT) sector
- Funds provided by other BC provincial government programs cannot be matched by Destination BC e.g., Rural Dividend Fund
- Funds contributed by partners or stakeholders outside British Columbia. These may be utilized but will not be matched by Destination BC.
 - Example: Consortium has \$50,000 from partners (including \$10,000 from a community or business based in Alberta or Washington). If the application is approved, Destination BC will only match funds from BC, i.e. \$40,000 will be matched. Destination BC may consider exceptions if there are compelling reasons and depending on potential return on investment.

OSOYOOS
Photo: Indigenous Tourism of BC

4.5 Eligible Markets

The intended focus of effort for the Co-op Program is to be short-haul markets (BC, Alberta, and Washington).

Exceptions to the short-haul markets may be made, with the appropriate business rationale. Overseas markets are ineligible.

4.6 Regulations Compliance

We all have a role to play in ensuring safe and responsible travel in British Columbia.

Successful applicants will be required to obtain all necessary permissions related to land, water and air access including, but not limited to, Crown Land, Provincial Parks, and Indigenous Territory for First Nations should any marketing promote these areas.

Successful applicants will also need to ensure their marketing message is in compliance with Provincial and Federal advertising regulations. Applicants will also be required to adhere to suggested messaging regarding responsible travel as directed by the Government of British Columbia and the Provincial Health Officer.

Ultimately, applicants are expected to produce marketing that reflects safe and responsible travel. For example, consider whether the trails listed on your website are sanctioned, or whether your photos are encouraging responsible wildlife watching behaviour. Consider whether the influencers in your videos are treading lightly on the land. For more details on safety and responsibility best practices, please contact coop@destinationbc.ca.

4.7 Reconciliation

Destination BC recognizes its responsibility and role in reconciliation with Indigenous communities and is actively engaging in this work through facets such as, but not limited to, employment practices, partnerships, and content planning. We all have a role to play in reconciliation, and DBC encourages all partners to consider how their planning and activities support reconciliation.

Photo: Mitch Winton

NIMPO LAKE
Photo: Grant Harder

4.8 Destination Development

Destination Development is the strategic planning and advancement of defined areas to support the evolution of desirable destinations for travellers, with a sole focus on the supply side of tourism, by providing compelling experiences, quality infrastructure, and remarkable services to entice repeat visitation. Across the province, many 10-year destination development strategies have been created on both regional and sub-regional (or ‘planning area’) levels. Applicants are encouraged to refer to applicable planning area and regional strategies in the event their activities directly support new product ideas or action items through marketing. Learn more about Destination Development, [here](#).

4.9 Emergency Marketing Fund

For the last several years, British Columbia has dealt with natural disasters including devastating wildfires. These events impacted visitation to some communities and the province’s reputation. Should the need arise due to a natural disaster, Destination BC may make additional funds available directly to applicants via the Open Pool program. The same application criteria and procedures, eligible activities and reporting will be required. To access funds, certain conditions must be in place, including a provincial state of emergency. Destination BC will determine, based on the situation, if funds are available and the corresponding budget. Potential eligible applicants must contact program staff for more information.

5. Alignment to the Provincial Destination Marketing Strategy

Through deep collaboration, access to shared tools, and industry learning programs, Destination BC aims to support industry in building digital marketing excellence across the tourism marketing ecosystem. Deep collaboration means exploring and implementing new ways to work together that we are unlikely to be able to do on our own; ways that require the power of collective thinking, effort and investment. These include shared technology systems, process, protocols and marketing approaches, such as the Co-op Marketing Program.

There are several ways that Co-op Marketing participants can demonstrate support for and alignment to the provincial destination marketing strategy including strategies and tactics such as:

- Industry Digital Readiness
- Participating in the common tagging framework program
- Alignment in marketing performance measurement
- Brand alignment to *Super, Natural British Columbia*
- Adopting a Content Commonwealth approach that includes shared content marketing programs and tactics such as the UGC Partnership Network, the BC Content Hub, 3rd party usage rights, Model Consent & Release Forms, and consultation with Destination BC
- Paid Search (Search Engine Marketing) alignment; and
- Social Media program alignment

These are further outlined below. We strongly encourage you to consider the following areas of alignment when building your marketing plan and executing the eligible tactics within the Program.

Understanding of and alignment to the consumer journey outlined in Destination BC's Global Marketing Strategy also strengthens our collective outcomes by coordinating individual efforts towards the same goals.

The consumer journey that Destination BC uses in our global marketing programs is:

- Captivate
- Activate
- Generate
- Advocate

Destination BC strongly encourages Co-op Program applicants to review Destination BC's Global Marketing Strategy. To request a copy of the latest Global Marketing Strategy, email marketing.plan@destinationbc.ca.

5.1 Invest in Iconics Strategy

Destination BC introduced the Invest in Iconics strategy at the Tourism Industry Conference in March 2020. While our world and industry has changed significantly since that time, Destination BC remains committed to this strategy to create a long-term competitive advantage for BC's tourism industry and to support our collective recovery efforts.

The Invest in Iconics strategy is an exciting new approach to how we package and market British Columbia that focuses responsibly and sustainably increasing tourism revenue through a focus on geographic and seasonal distribution of travellers. The strategy aims to create globally compelling reasons for visitors to travel throughout BC by building and marketing flagship tourism destination brands to drive visitors to more places in more seasons.

The Invest in Iconic strategy has two core components; both are necessary to achieve our goals:

1. Elevating the appeal of our Iconic places through the creation and marketing of new destination tourism brands focused on a select number of routes and places throughout BC; and
2. Developing remarkable, compelling experiences through destination development and experience development.

This represents true integrated marketing and destination development both internally at Destination BC and externally with partners.

The creation of Invest in Iconics strategy in BC will be a long-term journey between Destination BC and our industry partners. Together we will build the new destination tourism brands and make them successful.

5.2 Industry Digital Readiness

To continue to compete in a hyper digital and highly mobile world, we all need to keep pace with consumer adoption of new technology and tools. And, we all need to deeply understand digital marketing channels and be highly conversant with data-driven approaches to reach our high potential travellers and convert them to visitation. We call this Digital Readiness. Digital Readiness will become even more important as we work together as an industry in our Recovery and Resilience phases.

To facilitate the digital readiness of BC's tourism industry, in future years, the Co-op Program will require a minimum level of digital readiness to access funds.

Destination BC continues to encourage all tourism organizations and businesses to prioritize their digital readiness, to increase their ability to attract and convert potential travellers. Being “digitally ready” starts with:

- Building a mobile-first website with strong search engine optimization (SEO)

- Claiming your Google My Business and TripAdvisor listings
- Adding e-commerce capabilities on your website

We encourage you to complete the [digital readiness assessment checklist](#) and share this with your stakeholders. This digital self-audit will help you understand your current state of digital literacy. The assessment checklist and other resources on digital literacy can be found in the Destination BC Learning Centre.

5.3 The Common Tagging Framework—Website Tagging

Our ability to compete effectively in an environment of continuous digital disruption depends on our access to consumer data. We also need the ability to analyze the data for meaningful insights, and to act on this data, whether it be to identify new audiences, reconnect with those showing an interest in BC travel, or improving the consumer's travel experience with timely, relevant content.

Creating a unified digital marketing ecosystem—the Common Tagging Framework—by connecting the fragments of data and traveller insights found with

tourism businesses across the province, helps create a singular, comprehensive view of the BC traveller. With this comprehensive, well-defined traveller in mind, Destination BC and its partners can produce more effective communications and joint marketing efforts, motivating more travellers to visit BC. We ask Co-op applicants to place tags (a small piece of code) on their campaign landing pages, microsites and websites to help grow our data pool. Website tagging will likely be a future program requirement given coming changes in the online marketplace. Please see [Appendix 6](#) Resources for more details.

5.4 Marketing Performance Measurement Alignment

It is important to be rigorous in the measurement of our marketing activities to manage, optimize, and improve the performance of each activity. Sharing a common set of measures, with meaningful and consistent data, tells us if our collective efforts are making a difference and driving the results we all want to achieve. Common measures are critical to measure performance against targets and benchmarks and compare activities across the Co-op Program and across years. Metrics in

Destination BC's Marketing Performance Measurement Framework for digital marketing have been incorporated into the program KPI's.

The Program and definitions can be found in [Appendix 5](#).

Further information can be found in the program FAQs. These KPIs will be collected for both interim and final reporting.

5.5 Brand Alignment

Provincial alignment to the *Super, Natural British Columbia* brand supports our global competitiveness by driving stronger consumer recognition of the British Columbia experience. By aligning your brand and marketing with the *Super, Natural British Columbia* brand, you can add to the power of that recognition and leverage the resonance that the brand has built with domestic and global audiences through Destination BC's global marketing programs.

We have developed three tiers of brand alignment, from highly aligned (Tier 1) to least aligned (Tier 3) to help us work with you better. Applications should clearly state at what tier their marketing aligns with the provincial brand and how it aligns. See below for guidance on how to demonstrate your brand alignment.

TIERS

- **Tier 1**, highly aligned (strategic and creative alignment): brand-aligned values and messaging, the use of the logo tile, and the use of at least two other brand elements (strategic elements such as essence or attributes, colours, photography style, fonts).
- **Tier 2**, medium alignment: use of the logo tile, as well as one other brand element (please name the element).
- **Tier 3**, least aligned: logo tile use only.

Note: to use the logo tile or Great Forest font, you must sign a license agreement each year.

HOW YOU ALIGN

Please consider the following in your application:

- What stories can be told about the people that have been shaped by nature?
- In the Brand Guidelines we talk about the concept of *Cultured/Raw*, where nature and culture meet. Are there examples of nature and culture coming together in your consortium or sector?
- How will you incorporate the brand attributes into your content marketing?

5.6 Content Commonwealth

By aligning our collective efforts in content marketing, we can reduce duplication and increase the reach of our content by sharing each others' content—ultimately driving a bigger ROI for our content marketing efforts.

Destination BC aims to increase provincial content alignment through building shared tools development, processes, and expertise in content marketing. We strongly encourage Co-op participants to adopt a content commonwealth approach to content marketing, through the following tactics and programs:

BC STORY NETWORK

In 2019, Destination BC and tourism partners from across the province launched the BC Story Network, a networked approach to content marketing for the province, powered by CrowdRiff's Localhood platform. This program allows BC partners to easily create Travel Stories—mobile first, visually immersive content in a vertical format—and instantaneously publish the content to multiple distribution channels (including HelloBC.com and in organic Google search results).

The BC Story Network enables Destination BC and its tourism industry partners to capitalize on the explosive growth of the Stories format, as well as significantly expand their ability to scale and share content across the destination in powerful ways not previously possible:

- Travel Stories are contextual and offer much more data to provide travellers with the depth of information needed in researching a destination;
- With its omni-channel approach, the same Travel Stories can be created once and shared everywhere, from a destination's website to Google Search, Facebook, Instagram, and TikTok to exponentially increase the reach of the rich content being shared;
- Travel Stories are connected across the travel ecosystem, eliminating the need for brands to manually connect with partners to source local stories. This networked experience enables a traveller interested in a particular destination to view stories from different partners, and easily connect with them, if they choose to, without having to actively seek out each one individually;
- The content shared through Travel Stories is evergreen (it does not expire).

To find out more about participating in this program, contact globalcontent@destinationbc.ca.

UGC PARTNERSHIP NETWORK

Locals and visitors are having remarkable experiences in BC and are sharing those stories through social media to create powerful word-of-mouth marketing. Many of us in the BC tourism network spend time curating this user-generated content (UGC) to amplify through our own online channels, often searching for similar content to share with the same potential travellers. This creates duplication of effort. The UGC Partnership Network creates the opportunity for you to share the content you curate from social media with others in the network, such as Destination BC and Destination Canada, for amplification on their own channels.

To find out more about participating in this program, contact the Co-op Marketing team.

BC CONTENT HUB

With the BC Content Hub, our Digital Asset Management (DAM) System, Destination BC aims to create a shared collection of high-quality, brand-aligned content for use by all partners.

Co-op participants can leverage the BC Content Hub in several ways:

- By signing up for an account at BCCContentHub.com to see what visual assets are already available for your area or sector
- Co-op participants can submit brand-aligned assets created as part of the Co-op Marketing Program to the system, where it can be accessed and amplified by Destination BC and other partners (such as Destination Canada and global travel trade and travel media)
- CDMOs or sector associations can fully onboard to the system and use it as their Digital Asset Management (DAM) System (to store and share all of their visual assets)

Find out more about participating in the BC Content Hub program by contacting brand@destinationbc.ca.

THIRD-PARTY USAGE RIGHTS

In order for us to amplify each others' content, for greater ROI in our content creation efforts, we each need to ensure we are seeking third-party usage rights when engaging photographers, videographers, writers, or other content creators whenever possible. Destination BC is available for consultation to support you in this; note that it is critical that this discussion take place prior to contracting with your content creators, as it is more efficient to acquire additional rights at the beginning of a project than after the content is created. The Destination BC team can provide information on costs to acquire materials with third-party rights.

Please include the following language in your contract with content creators:

The parties agree that the supplier grants <Your Co-op Group> and Destination BC Corp:

- A non-exclusive, perpetual, irrevocable, royalty-free, assignable, worldwide license to use, reproduce, modify, and distribute the content asset(s); and
- The right to sublicense to third-parties the right to use, reproduce, modify and distribute the content assets for the purpose of promoting travel to or within BC.

This will allow Destination BC to:

- Add your content to the BC Content Hub (at Destination BC's discretion) for use by Destination BC and other partners, such as Destination Canada and global travel media and travel trade, for use in global marketing activities.
- Use your consortia's articles, video, and photography on Destination BC's channels including websites, Facebook, Twitter, Instagram, Pinterest, YouTube, sponsored and/or promoted social media; posts, consumer websites, email marketing and other digital channels.
- Edit content for size and length where relevant.
- Translate content into other languages for use in Destination BC's global markets.

MODEL CONSENT RELEASE FORMS

We require that any models or other individuals pictured in your content (photo or video) created with Co-op Marketing funding sign Destination BC's [Model Consent Release form](#). As a public body, Destination BC is required to comply with the Freedom of Information and Protection of Privacy Act, which includes ensuring any individual pictured in the content we share has consented to that use. Without this step, we will be unable to share your content on our channels (including embedding/sharing from your YouTube channel or social media accounts). The release form is available on [DestinationBC.ca](https://destinationbc.ca). If you have questions about using the Model Consent Release Form, please contact brand@destinationbc.ca.

CONSULTATION WITH DESTINATION BC

If you are considering creation of brand-aligned photography or video, or digital content marketing tactics in your co-operative marketing plan, it is important to involve the Destination BC Global Brand & Content department in your planning. This will ensure that asset and content development using co-op funds supports our goal of building a content commonwealth and maximizes marketing opportunities.

Co-op projects with a total content project cost of \$30,000 (photography, videography, or other content formats) or greater are required to consult with our Global Brand & Content team.

Please note that if projects in this category do not hold a planning session with Destination BC, Destination BC will withhold its financial contribution to the cost of content acquisition. If the total cost of your content development is less than \$30,000, we still encourage you to reach out to our team to discuss alignment. Please contact globalcontent@destinationbc.ca to arrange a consultation.

IMPORTANT NOTE

Please note that in future program years, we may require all content development within the Co-op program to be developed in full alignment with the *Super, Natural British Columbia* brand and include rights for Destination BC and partners.

5.7 Paid Search (Search Engine Marketing)

In order to achieve better alignment, avoid duplication, and prevent higher costs with Paid Search, we ask you to share the following information with us when your campaigns are running.

- What markets are you/will you be promoting your product/services in via paid search?
- What months will your paid search program be running in? (Is it “always on” or just during certain months of the year?)
- Do you have a list of the keywords and ad groups that you can provide us with so we can ensure there is no overlap?

5.8 Social Media

There are several ways in which you can engage and align with us on Social Media:

FOLLOW

Follow us on [Facebook](#), [Instagram](#), [Pinterest](#), and [YouTube](#). By following us, you can learn more about the type of content we share.

PARTICIPATE

By following us, you’ll be able to see when we share content related to your sector or community; this is an opportunity for you to jump into the conversation and engage with potential visitors in our social media community.

AMPLIFY

When we post about your communities or sector, you can amplify that messaging by sharing it on the marketing channels you are active on.

USE #EXPLOREBC

By tagging your content with #exploreBC, you will tap into a very engaged community who are potential consumers and advocates and you will introduce your content to a wider audience. Destination BC’s Digital Content team curates content from this hashtag.

6. Funding

6.1 Application Window

There is one annual application window; the deadline to submit an application is November 30. Early submissions are encouraged. All applications received by the deadline are collectively reviewed and evaluated based on merit. In rare occasions, applications may be accepted outside of these dates, on a first-come, first-served basis, subject to availability of funds.

6.2 Funding Options

Applicants are eligible to apply annually for up to a 50% contribution from Destination BC. This is a cost-shared program; applicants must contribute 50% (or more) towards the total project budget, and approved projects will receive up to 50% in matching funding from Destination BC. If providing matching funding poses a significant concern, please contact coop@destinationbc.ca to discuss.

COMMUNITY CONSORTIUMS OR SECTORS

- Community Consortiums or Sectors are eligible to apply for up to a 50% contribution from Destination BC. Funding requests must be for a minimum of \$20,000, to a maximum of \$250,000.
 - Example: \$20,000 in funds from Destination BC plus \$20,000 in funds from the Consortium or Sector equates to a total project budget of \$40,000.
- Destination BC reserves the right to award funding that ensures regional distribution.

- To manage the funds available, Destination BC may award partial funding and, limit the number of approved applications above \$100,000.
- Partner Applicants (i.e. a Community within a Consortium) can be a part of more than one application, including Sector applications.

However, no one Community or Sector can apply for more than \$250,000 in total requests from Destination BC, per year, between all applications in the Open Pool.

- There is no minimum investment required by each partner, and each does not need to contribute an equal amount; however, a reasonable investment from each partner representing true collaboration, should exist. See [FAQ](#) for details.

INDIVIDUAL COMMUNITY OR PAIRED COMMUNITIES

- Where there is not the opportunity to form a Community Consortium, an Individual Community may apply for \$7,500 from Destination BC
- For Paired Communities where there is not the opportunity to form Community Consortia, applicants may apply for \$15,000 from Destination BC
- Preapproval by Destination BC program staff is required to apply as an individual or paired community. If approval is given, Individual and Paired community applicants are not eligible to participate in a Community Consortium application for additional funding.
- Individual and Paired communities may participate in Sector programs.
- Individual and Paired communities are only eligible to submit one application for funding, and marketing activities must represent the broader community stakeholder base.

All applicants will receive a Funding Notification letter following the evaluation of their application, and if successful, a Shared Cost Agreement (contract) which outlines the obligations of each party.

6.3 Funding Payment and Requirements

COMMUNITY CONSORTIUMS AND SECTORS

- Funding will be provided based on the amount set out in the Funding Notification and upon fulfillment of contract requirements (e.g. 50% payment will be made upon signing of the contract, 35% payment will be made upon receipt of an Interim Report and results, and the remaining 15% will be paid upon completion of approved marketing tactics and submission and approval of a Post Project Report).
- If cash flow challenges are expected based on the timing of payment, please contact program staff to discuss options.
- Prior to the second payment, applicants must discuss progress with program staff and provide an Interim Report, with results to-date against the identified activities in their application. If an Applicant fails to provide an Interim Report, the second payment of 35% of the funds will not be released. Please note, applicants with content acquisition totalling \$30,000 or more must also demonstrate a consultation session with Destination BC's brand team has taken place.

Destination BC will withhold its contribution to the costs of acquiring content should this consultation not take place.

- Within 30 days of project completion, and prior to the final payment, applicants should complete a Post Project Report, including final project results, in full and in a format provided by Destination BC. If an Applicant fails to provide a Post Project Report, the final payment of 15% of the funds will not be released and will result in applications being rejected in subsequent years. Flexibility in this process may be acceptable in extraordinary situations.

- Destination BC will require the return of any unspent funds or funds spent on ineligible activities. If you find that you will not spend your full funding allocation as you approach the end of fiscal year, please contact program staff to discuss options.
- Report templates will be shared in advance of anticipated deadlines or can be requested by emailing coop@destinationbc.ca.

INDIVIDUAL AND PAIRED COMMUNITIES

- Funding will be provided as one lump sum payment based on the terms set out in the Funding Notification, provided the Applicant has agreed to meet funding requirements.
- An Interim Report, providing detailed results to date, will be required midway through the project. Within 30 days of project completion, applicants must complete a Post Project Report, including final project results, and in a format provided by Destination BC. Failure to provide an appropriate report will result in applications being rejected in subsequent years.
- Destination BC will require the return of any unspent funds or funds spent on ineligible activities.
- Report templates will be shared in advance of anticipated deadlines or can be requested by emailing coop@destinationbc.ca

7. Application Procedures

7.1 Application Process

**Applications must be received by 4:30 p.m. PST November 30.
Incomplete or late applications will not be considered.**

Applications will be evaluated by Destination BC staff against the requirements and criteria specified in this document. Regional DMOs will be involved in the review process for Community Consortium applications to provide input and regional insights.

Destination BC will have the ultimate decision on any application. Applicants may be contacted by program staff to consider changes to their application to better meet program requirements and criteria.

Destination BC reserves the right to select and approve project proposals which best meet the objectives and requirements of the program and demonstrate the greatest potential to meet program goals and objectives.

For Community Consortiums, one Legal Entity must sign on behalf of all Partner applicants and assume legal responsibility for the project. This Legal Entity must be a tourism association/organization, municipality, regional district, First Nation, Regional DMO or similar entity.

**Applications must be submitted by
email to coop@destinationbc.ca.**

YOHO NATIONAL PARK

7.2 Application Assistance

Applicants are encouraged to contact the Program staff as they develop their application to ensure that all requirements are being met.

Applicants are also encouraged to contact Destination BC to discuss tie-in to the *Super, Natural British Columbia* brand and alignment with Destination BC's marketing efforts.

Regional DMOs may assist Community Consortia in coming together and developing their plan, if desired by the Community Consortia, and at the discretion of those communities.

Destination BC staff are available to assist with the application process.

Please contact coop@destinationbc.ca for assistance.

PRINCE RUPERT
Photo: Jeff Easingwood

7.3 Application Evaluation

Destination BC will provide up to 50% of total project funding. Campaigns must provide a measurable call to action. Applications will be evaluated based on the following four criteria categories and should be addressed in the appropriate section of the application.

A. INCREASED TOURISM REVENUE IN BC (25%)

- Demonstration of a baseline and projected year over year growth in overnight visitor volume
- Demonstration of a baseline and projected year over year growth in overnight visitor expenditure
- Identification of need periods and opportunities to promote the destination or product year-round where capacity exists
- Dispersion of benefits across the province (tourism product/experience sectors applicants)

B. BUILDING BRAND-ALIGNED CONTENT AND A CONTENT COMMONWEALTH APPROACH (25%)

- Allocate an appropriate budget for brand-aligned raw asset acquisition with the intention of attaining assets for the BC Content Hub (addition of assets to the Hub at Destination BC's discretion)
- Clearly identify brand-alignment tier and how you align with the *Super, Natural British Columbia* brand
- Booked consultation meeting with Destination BC's Global Brand & Content team
- Adoption of a content commonwealth approach

C. STRENGTH OF THE MARKETING PLAN (40%)

- Research-based evidence of consumer desire (demand) for the offer
- Creates an emotional urgency to visit BC now (Captivate)
- Generates leads for BC tourism businesses (Generate)
- Encourages BC residents and travellers to share their BC stories with the world (Advocate)

- Participation in the Destination BC Website Tagging program
- Mobile-first website
- Alignment with and contribution to overall provincial and regional strategic priorities
- Amount of private sector participation and investment in plan
- Need periods are effectively supported by tactics
- Project objectives are supported by an appropriate mix of traditional and digital activities
- Provides booking capability or ability to refer leads to businesses
- Provide a measurable call to action;
- Demonstration of creativity and innovation
- Alignment to Destination BC's Global Marketing Strategy
- Demonstration of incremental returns or benefits as a result of the marketing plan (outside of the status quo)
- Demonstration of progression and/or continuous improvement if repeating a tactic

D. RESOURCES TO EXECUTE PROGRAM EFFECTIVELY (10%)

- Project management capability including accurate and punctual reporting
- Ability to work in collaboration and build relationships with industry and non-industry partners

7.4 Funding Notifications and Shared Cost Agreements (Contracts)

Applications will be reviewed in December and January. Destination BC will issue a Funding Notification letter once application evaluations have been completed. Typically, all Funding Notification letters will be issued by January 31. The Funding Notification letter will be followed in March by a Shared Cost agreement (contract) which must be signed by the Legal Entity. The Shared Cost Agreement is a government contract and requires the Legal Entity to carry Commercial General Liability insurance, with Destination BC named as an Additional Insured. Please contact Program staff with questions.

7.5 Program Execution Changes

Once approved, any changes to the application will need to be approved by Destination BC. Successful applicants must request any changes to marketing tactics in writing to Destination BC. All changes must be approved by Destination BC in order to be deemed an eligible expense. Marketing activities undertaken that have not been approved or are not identified in the contract are not eligible for funding.

7.6 Feedback

Destination BC will provide constructive feedback to applicants to ensure that applications can best meet program criteria.

7.7 Project Reporting

An Interim Project report, with results, must be submitted in accordance with the signed contract. Please include interim results of the KPIs outlined in [Appendix 6](#). You may choose to identify, and report on, additional metrics in your application for evaluation. All metrics should be reported on in both the interim and final reports.

A Post Project Report must be submitted prior to the final payment and within 30 days of the completion of the marketing project. Recipients will report on the resulting impacts of the marketing project.

If an Applicant fails to provide an Interim Report, the final payment of the funds will not be released.

If an Applicant fails to provide a Post Project Report, the final payment of the funds will not be released and no future funding for any of the partners will be available.

Recovery of the previous payments will be required.

The Post Project Report must also include a detailed list of suppliers and expenses that equal the total amount of funds approved for the marketing project in a format stipulated by Destination BC.

Marketing outputs must be submitted along with both the Interim Report and the Post Project Report. Electronic files are preferred (not just links to the digital location) and should showcase the completed tactic.

Random audits will be performed, in which selected applicants' marketing projects will be required to submit all invoices or to participate in a full audit of their Post Project Report, including performance measures and results. If an applicant fails an audit, no future funding for any of the partners may be available. Recovery of all Destination BC payments will be required.

GIBSONS
Photo: Sunshine Coast Tourism

7.8 Other Program Requirements

Marketing activities must be completed and all funds must be spent during Destination BC's applicable fiscal year (April 1 to March 31) in order to be approved. Projects will be deemed incomplete without submission and approval of a final Post Project Report in a form acceptable to Destination BC.

Successful applicants will be encouraged to work with the *Super, Natural British Columbia* brand and creative guidelines to achieve alignment. For more information, please contact program staff for brand tools. Please refer to [Destination BC's Brand Resources](#).

Destination BC has the right to modify these program guidelines at any time.

APPENDICES

Appendix 1: Definitions

ALIGNMENT

- In this context, strategic alignment is the process and result of improving linkages between destination marketing organizations at all levels (e.g. structures, resources and strategies), and strengthening marketing critical mass to enable a higher performance by optimizing all contributions to the goal of increasing tourism revenues to BC.

AUTHORIZED AUTHORITY

- The main contact at the Lead Organization who is authorized to contract with Destination BC.

BC CONTENT HUB

- Destination BC's tool that houses all assets including photography, video and stories

CALL-TO-ACTION

- Call-to-action (CTA) is an instruction to the audience designed to provoke an immediate response (e.g., "call now", "find out more", etc.).

COMMUNITY

- Geographic areas with a Destination Marketing Organization (DMO), or where a DMO does not exist, a municipal or village council, or Indigenous Communities, or regional district.
- Some communities may already be geographically defined by existing Destination Marketing Organizations.

COMMUNITY CONSORTIUM

- Consortiums or clusters of 3 or more eligible organizations.
- Consortiums should be developed based on a strong unifying theme, e.g., experience, geographic route.

DISPLAY ADVERTISING (ONLINE)

- Conveys a commercial message visually using text, logos, animations, videos, photographs, or other graphics on a website or search engine and most often appears in the form of a banner at the top or sidebar of a web page. These ads are designed to attract traffic with a link to the advertiser's website¹.

FOIPPA

- Freedom of Information and Protection of Privacy Act.

FUNDING PARTNERS

- Other organizations or businesses that buy-in or provide funds to the Consortium initiatives.

INDIVIDUAL COMMUNITY

- An individual community and/or Community Destination Marketing Organization where there is not the opportunity to form a Community Consortium.

LEAD ORGANIZATION

- The one Legal Entity which will be assuming financial and reporting responsibility for the Application Funding Partners and will manage the execution of the Consortium initiatives.

¹www.kasatria.com/basics-of-online-marketing/what-is-display-advertising#.WaccqJiouBZ

MARKETING TACTIC COORDINATION FEES

- These fees are intended to help the applicants manage the project, e.g. liaise with service providers, complete interim and final reports for Destination BC; ensure that tactics are completed in accordance with Co-op Program guidelines.

MERIT

- The quality of being particularly good or worthy, which in this case refers to a combination of attributes that amounts to providing value for the Co-operative Marketing Program dollar investment.

NATIVE ADVERTISING

- Paid content that is “in-feed” and inherently non-disruptive, following the natural form and function of the user experience in which it is placed. This includes promoted tweets on Twitter, suggested posts on Facebook, and editorial-based content recommendations. The most traditional form of native marketing is when sponsor-funded content is placed alongside editorial content².

PAIRED COMMUNITIES

- Two communities and/or Community Destination Marketing Organizations where there is not the opportunity to form Community Consortia.

REACH

- A measure of potential audience size; the number of unique people who see your content.

ROI

- Return on Investment, which in this case refers to positive benefits from a project or initiative as a result of the investment from the co-operative marketing program dollar investment. To calculate ROI, the benefit (revenue return) of an investment is divided by the cost of the investment; the result is expressed as a percentage or a ratio. While not all projects may be able to calculate a true ROI, there is a desire to be able to demonstrate the project has delivered results and provided value greater than the investment level.

SKI

- Winter experiences with a primary product experience of market-ready skiing, including Alpine (ski resorts), cat skiing, heli-skiing, and Nordic.

TOURING & EXPLORING

- A journey that encompasses several destinations and activities over multiple days.
- Touring & Exploring experiences should focus on a wide range of attractions and activities with the general intent of exploring BC (i.e. no one specific motivator is driving the trip-planning).
- Touring campaigns should include multiple activities with different target audiences and different messaging.
- The journey may be within a specific area or it may transcend one or more areas.

²www.outbrain.com/native-advertising/

Appendix 2: Reserved Pool

Program Guidelines specific to the Reserved Pool are provided directly to the Eligible Recipients only. The following information is provided within these Open Pool Guidelines to assist with applications and alignment.

TOURING & EXPLORING

- Eligible Recipient: Regional Destination Marketing Organizations (see [Appendix 3](#))
- Touring & Exploring definition:
 - A journey that encompasses several destinations and activities over multiple days.
 - Touring & Exploring experiences should focus on a wide range of attractions and activities with the general intent of exploring BC (i.e. no one specific motivator is driving the trip-planning)
 - Touring campaigns should include multiple activities with different target audiences and different messaging.
 - The journey may be within a specific area/region or it may transcend one or more area/regions.

INDIGENOUS

- Eligible Recipient: Indigenous Tourism BC

SKI

- Eligible Recipient: The Canada West Ski Areas Association
- Ski definition:
 - Winter experiences with a primary product experience of market-ready skiing, including Alpine (ski resorts), cat skiing, heli-skiing, and Nordic.

Appendix 5: Metrics

The KPIs and industry benchmarks provided below are a reference tool and are used as the basis for reporting in the program. These will provide you with indicators to maintain and evaluate the success of your marketing initiatives against industry benchmarks and to allow you to make any necessary adjustments during the project.

Each project should generate a baseline to understand how the project is progressing each year. This year-over-year tracking should be a communication tool among partners and help you work towards improving your initiatives and metric ratings each year.

Please note: Benchmarks provided are a guideline and can vary depending on several factors such as

approach or strategy (i.e. for search, broad keywords tend to be more expensive and click-thru rates tends to be lower and vice versa). Where N/A appears, a benchmark is not provided as these will vary from business-to-business and may vary from campaign-to-campaign. Results are heavily dependent upon business goals and campaign objectives.

TACTIC	METRIC	PURPOSE	INDUSTRY BENCHMARK
PAID ADVERTISING			
Print (Newspaper / Magazine) Radio Television	Reach (Number of people exposed to the print ad, radio ad, TV ad based on subscription or listener numbers)	To understand potential size of audience	n/a
DIGITAL ADVERTISING			
Email Marketing	Total Delivered	To understand number of emails sent	n/a
	Unique Open Rate	Indicates interest (relevancy of the email content and frequency of emails received)	22.7% ³
	Unique Click Rate		2.4% ³
	Unsubscribe Rate		0.176% ³
	Total Email Revenue (if tracking)	To understand the value of sales that can be attributed to the email	n/a

³IBM Marketing Cloud Benchmark Study 2016: Lodging, Travel Agencies & Services sector

TACTIC	METRIC	PURPOSE	INDUSTRY BENCHMARK
Paid Search / Search Engine Marketing	Pre-click metric: Impressions	An indicator of demand (the higher the impressions, the higher the demand)	n/a
	Pre-click metric: Click through rate (CTR)	Indicates interest in the ad (copy, subject matter etc); it can also be an indicator of relevancy of the search query to the ad	Search 2.18% ⁴
	Pre-click metric: Cost per click (CPC)	Indicates media efficiency	Search \$1.55 ⁴
	Post-click metric: Bounce Rate	Indicates relevancy of the search query to the landing page the user is being sent	n/a
	Post-click metric: Time on Site	Indicates content consumption (engagement)	n/a
	Post-click metric: Pages per visit	Indicates content consumption (engagement)	n/a
	Post-click metric: Cost per action	Indicates media efficiency	Search \$60.31 ⁴
	Post-click metric: Conversion rate	Indicates the propensity of which a market, product, keyword, etc. converts	Search 2.57% ⁴
Paid Social Media	Reach	Reach tells you how many people have potentially seen your content	n/a
	Click-thru rate (CTR)	Click-thru rates tell you the effectiveness of your content in terms of interest—if people click on your ad/content they are showing interest. More clicks should result in a higher click-thru rate.	0.9% ⁵
	Cost per click (CPC)	Cost per click gauges the efficiency of your campaign. The lower the CPC, the more efficient your content/campaign is at driving interest. More clicks should result in a lower cost per click.	\$0.63 ⁵
	Conversion Rate (CVR)	Conversion rate shows the propensity of which your audience is likely to convert (conversions/clicks).	2.82% ⁵
	Cost per Action (CPA)	Cost per action is the efficiency of which your audience converts.	\$22.50 ⁵
	Engagements	Engagement is the number of people who have interacted with your content (engagements include likes, reactions, shares, comments, or video views).	n/a
	Cost per Engagement (CPE)	CPE shows you how much it costs for every engagement (varies depending on the engagement you are measuring: video, likes, reactions, shares, comments).	n/a

⁴Search Engine Marketing & Display benchmarks sourced from Wordstream (Travel & Hospitality)

⁵www.wordstream.com/blog/ws/2017/02/28/facebook-advertising-benchmarks

TACTIC	METRIC	PURPOSE	INDUSTRY BENCHMARK
Display (image and video) and Native Advertising	Time on site	Indicates content consumption (engagement)	n/a
	Pre-click metric: Click through rate (CTR)	Indicates interest in the ad (copy, subject matter etc). It can also be an indicator of relevancy of the search query to the ad	Display 0.47% ⁴
	Pre-click metric: Cost per click (CPC)	Indicates media efficiency	Display \$0.24 ⁴
	Post-click metric: Cost per conversion	Indicates media efficiency	Display \$45.28 ⁴
	Post-click metric: Conversion rate	Indicates the propensity of which a market, product, keyword, etc. converts	Display 0.53% ⁴
	Cost per engagement	Depends on definition of “engagement”: video view completion, comment, or share	Display 0.53% ⁴
Social Media	Total Followers	To understand size of audience	n/a
	Engagement Rate	Total engagement divided by reach	1%–5%, depending on advertising used ⁴
	Reach (The number of unique people who see your content, including those who have liked your page, and those who have not.)	To understand potential size of audience	n/a

Appendix 6: Resources

BRAND ALIGNMENT

Visit Destination BC's corporate website at www.DestinationBC.ca and check out the Brand Resources section for tools available to the industry. Once on the website:

- We encourage you to watch the webinar and read our brand guidelines and Top Tips for a Successful Photo or Video Shoot article.
- Register for the [BC Content Hub](#) (our digital asset management system that has photos and footage for BC tourism industry stakeholders to use, at no cost).
- Please consider engaging with the team and your creative agency as early as possible. Book a time to talk to one of our Brand & Creative Coordinators so they can become engaged in your creative process to discuss how we can support you in your tactics, especially asset development. Reach the team by contacting brand@destinationbc.ca and copying the Co-op team at coop@destinationbc.ca.

CONTENT MARKETING

Hundreds of pieces of content are created and curated across our tourism partner network every day. While Destination BC strives to share and amplify industry content, the volume of requests we receive is quite large. As a result, we've created a content checklist for you to improve the likelihood of your content being shared within our partner network. The content partner checklist can be found [here](#).

SOCIAL MEDIA

| Destination BC's Consumer Social Channels are:

- Facebook: [@HelloBC](#)
- Instagram: [@HelloBC](#)
- YouTube: www.youtube.com/user/TourismBC
- Pinterest: pinterest.com/HelloBC

| Other social media resources available to you include:

- Destination BC's [Social Media Marketing Strategy](#)
- Destination BC's Learning Centre: [Social Media Marketing Resources](#)

Please email coop@destinationbc.ca with any questions related to social media.

MOBILE-FIRST WEBSITES

Increasingly, consumers are planning and booking travel using smartphones and other mobile devices instead of desktops. In fact, for many travel websites, up to 50% of website traffic is now coming from mobile devices. Because of this, your website including key landing pages that serve as a call-to action for marketing activities should ideally be mobile-first or meet minimum standards of mobile-friendliness to ensure a positive user-experience. Considerations include:

- **Performance:** Page speed and size, image size, and other issues can slow down your website and result in higher bounce rate (people leaving your website quickly) and bad user experience. In some cases, users may not wait for your page to load if it exceeds 5 seconds.
- **Usability:** How a website renders on mobile devices and a great overall mobile experience can help visitors find what they're looking for instead of leaving (bouncing) off your website quickly. Factors include readability, horizontal scrolling, "pinching and pulling" and navigation menus that are difficult to use on mobile.
- **Search Engine Optimization:** SEO is important as it ensures that your website ranks better in search and it drives valuable organic traffic to your website. Search engines have added mobile responsiveness as a factor in the ranking algorithms which determine the search result order.

A [digital literacy checklist](#) is available in the Learning Centre.

WEBSITE TAGGING

www.DestinationBC.ca/learning-centre/lets-play-tag-how-data-makes-us-more-efficient-marketers/

Destination BC uses website tagging via Google's Global Site Tags, an updated format of Google's Floodlight tag. support.google.com/dcm/answer/7554821?hl=en

- Global site tags work as a conversion tracking tag, recording in Google's measurement tools if a conversion action has taken place.
- Destination BC uses a visit to any tourism business website as a successful conversion, with global site tags used to confirm when a tourism business site visit takes place.
- This allows Destination BC to track campaign and marketing metrics beyond impressions and click-through rates. Tags allow marketers to better track campaign effectiveness and make smarter marketing decisions.
- These site visit conversions are part of Destination BC's Generate strategy—how many referrals (also known as leads) Destination BC is sending to a tourism industry partner website, whether through a Destination BC-led campaign or a sector-led campaign funded by Destination BC.
- Tags also collect anonymous consumer data that gives us a greater understanding of our potential travellers.
- To learn more about tagging or join the program visit <https://destinationbc.force.com/s/tagging>. Note that technical resources are available through Destination BC to enable the implementation on your website.

LEARNING CENTRE

A free, online tool for BC's tourism industry with resources, tools, featured articles, guides, templates, and videos. www.destinationbc.ca/learning-centre

HELLOBC.COM TRIPADVISOR LISTING

Destination BC has embarked on a new partnership with TripAdvisor which will provide significant advantages for visitors planning their trips on HelloBC.com. Because of this partnership, all business listings on HelloBC will now include information pulled from the related TripAdvisor listing. To ensure that the information accurately reflects a business' branding and offerings, it is necessary to "claim" the listing on TripAdvisor.

Tourism businesses can visit TripAdvisor.ca to claim their listing.

Owners can complete the required information to prove authenticity as the "owner" of this listing. Once the claim has been approved, visit DestinationBC.net to enhance that listing with additional content including consumer website and booking URL, contact information, and social media accounts. Also, when a business claims their TripAdvisor listing, they can add up to 3 offers that appear on HelloBC.com.

All business listings will continue to be available on HelloBC.com at no cost and will continue to benefit from exposure to the millions of travellers who visit HelloBC.com each year.

TRAVEL MEDIA

Destination BC would like to work with you to maximize any Travel Media opportunities you wish to pursue. Please connect with us to help you assess the media value of potential hosting opportunities. If you are hosting a media event as part of tactics approved under the Destination BC Co-operative Partnerships Program, we would appreciate the opportunity to have a Destination BC representative in attendance. Please work with us to discuss the use of logo tiles on information related to your event.

Travel Media projects that were approved under the Program will not be eligible under the Destination BC's North America Visiting Journalist Program. If you have a separate media initiative, please contact us to discuss opportunities.

Please email coop@destinationbc.ca in regard to any media opportunities and events.

RESEARCH ACTIVITIES

Please connect with Destination BC's Research & Analytics team on the design and implementation of research activity proposed and approved under the Program.

Research that has been conducted by Destination BC that is available for industry use can be found [here](#).

Please email coop@destinationbc.ca to forward reports and contact the Research & Analytics team.

CORPORATE RESOURCES

For further information about our focus, investment, and activities in Global Marketing and Destination and Industry Development is available in our Corporate Plans. You can request a copy of the latest Global Marketing Plan by emailing marketing.plan@destinationbc.ca. You can request a copy of Destination BC's Destination Management Strategy & Plan 2018/2019 to 2020/2021 by emailing destination.plan@destinationbc.ca.
