RESEARCH INFORMATION & METHODOLOGY

More information, including Local Series, Regional Series, and Provincial-level reporting can be found at destinationbc.ca/research-insights/type/resident-research/

- Online surveys were completed by BC residents using online panels via Sentis Research
- The online survey was fielded in November 2024
- Total sample size used in this report are as follows:
 - British Columbia: n=4872
 - Northern BC Region: n=208
 - Prince George: n=103
- Results are weighted by tourism region, age, and gender to be representative of BC’s overall population
- Most questions asked in a five-point agreement scale: Strongly Agree (5), Agree (4), Neither Agree nor Disagree (3), Disagree (2), Strongly Disagree (1)
- On page 1, top two questions reported as percentage of respondents who answered Strongly Agree (5) and Agree (4). The remaining respondents not included in the reported percentage answered Neither Agree nor Disagree (3), Disagree (2), or Strongly Disagree (1)
- Generally, respondents who responded ‘Don’t Know / Not Sure’ were excluded from the results of that question
- Regional and local level results are separated by municipality border using Forward Sortation Areas (FSAs). For this report, sortation areas used were as follows:
 - Prince George: V2K, V2L, V2M, V2N
 - Other areas within Northern BC Region:
 - Northern BC - excluding Prince George: V1G, V1J, V8C, V8G, V8J, V0C, V0T, V0V, V0W
 - Note: Rural FSAs spanning multiple regions were also separated and are also included as relevant in the data
