# Tourism Climate Adaptation & Environmental Sustainability Survey: Snapshot Series

## About the Survey

The BC Tourism Climate Resiliency Initiative (BCTCRI) is a province wide project that is building a foundational program to support a resilient tourism sector that is prepared to adapt to climate change.

The purpose of this survey is to help inform climate adaptation and environmental sustainability program needs. Conducted among tourism businesses in February 2025, this survey gathered baseline data that will be used to inform and track improvements over time.

Number of completed surveys:

**Attraction - 91**

**Province-wide - 572**

Sentis Research assisted with the analysis and reporting of the results.

## BCTCRI Partners

The BCTCRI and its representative projects are developed and delivered through collaboration between Destination BC and partner organizations—including the six Regional Destination Management Organizations (RDMOs), Indigenous Tourism BC, and the BC Ministry of Tourism, Arts, Culture and Sport—all working together to achieve the goals of the initiative.
