# Tourism Climate Adaptation & Environmental Sustainability Survey: Snapshot Series

## About the Survey

The BC Tourism Climate Resiliency Initiative (BCTCRI) is a province wide project that is building a foundational program to support a resilient tourism sector that is prepared to adapt to climate change.

The purpose of this survey is to help inform climate adaptation and environmental sustainability program needs. Conducted among tourism businesses in February 2025, this survey gathered baseline data that will be used to inform and track improvements over time.

Number of completed surveys:

**Fraser Valley - 33**

**Province-wide - 572**

Sentis Research assisted with the analysis and reporting of the results.

This report is based on a sample size of fewer than 50 respondents. While the findings offer useful insights, they should be interpreted with caution and are not necessarily representative of all tourism businesses in this category or area. The results are indicative only and should not be generalized beyond the sample group.

## Participating Communities

Fraser Valley
Abbotsford
Agassiz
Chilliwack
Fort Langley
Harrison Hot Springs
Harrison Mills
Hope
Langley

## BCTCRI Partners

The BCTCRI and its representative projects are developed and delivered through collaboration between Destination BC and partner organizations—including the six Regional Destination Management Organizations (RDMOs), Indigenous Tourism BC, and the BC Ministry of Tourism, Arts, Culture and Sport—all working together to achieve the goals of the initiative.
