About the Survey

The BC Tourism Climate Resiliency Initiative (BCTCRI) is a province-wide project focused on building a foundational program to support a resilient tourism sector that is prepared to adapt to climate change.

Conducted among tourism businesses in February-March 2026, the results presented in this report reflect actions taken by organizations in 2025. These results provide baseline data to track improvements over time and help inform climate adaptation and environmental sustainability program needs.

Number of completed surveys:

Greater Victoria - 23
Province-wide - 305

Sentis Research assisted with the analysis and reporting of the results.

BCTCRI Partners

The BCTCRI and its representative projects are developed and delivered through collaboration between Destination BC and partner organizations—including the six Regional Destination Management Organizations (RDMOs), Indigenous Tourism BC, and the BC Ministry of Tourism, Arts, Culture and Sport—all working together to achieve the goals of the initiative.
