Data Notes

The Tourism Indicators publication comprises key statistics covering major aspects of the tourism industry including visitation, accommodation and transportation, etc. The publication is updated monthly, however, all data is subject to ongoing revisions from suppliers.

Please note percent changes listed in this publication are for changes from the same period last year.

Provincial Indicators

International Visitor Arrivals to BC

Provided by Statistics Canada, also referred as 'custom entries', the data reports the volume of non-Canadian residents entering Canada through a designated land, sea or air border by province of entry and country of origin; the update is available monthly with a two-month lag. These figures do not account for all visitors to British Columbia since domestic visitors are excluded as well as international visitors who cross Canada Customs outside British Columbia yet still travel to British Columbia. Likewise, customs entries include visitors who cross Canada Customs in British Columbia, but who continue on to other provinces.

Canadian Re-entries to BC

Provided by Statistics Canada, the data reports the volume of Canadian residents returning from the United States and other countries to Canada through a designated land, sea or air border by province of entry; the update is available monthly with a two-month lag.

Travel Parties to Visitor Centres by Region

Provided by Destination British Columbia, the data reports the total volume of visitor parties to visitor centres in all six tourism regions of British Columbia each month; the update is available monthly.

Food & Convention

Restaurant Receipts

Provided by Statistics Canada, the data reports the total dollars spent on food services and drinking places in BC each month; the update is available monthly with a two-month lag.

Convention Centres

Provided by individual convention centres in BC, the data reports on totals for Total Event Participant Days and Non-Resident Delegate Days; the update is available quarterly based on a calendar year (e.g. Q1 means January to March). Non-Resident Delegate Days

includes all non-local delegates days attending Non-Resident Conventions (all events with one or more non-local delegates in attendance and two or more show days). The Vancouver Convention Centre Non-Resident Delegate Days do not include delegates from BC.

Accommodation Indicators

Room Revenue Estimates

Provided by BC Stats, the data reports provincial and by community room revenue based on the municipal and regional district tax (MRDT) of participating communities and accommodation sector revenue data. Data is presented by \$000; the update is available monthly with a two-month lag.

Provincial Occupancy Rate

Published by CBRE Hotels in *Trends in the Hotel Industry National Market Report*, the data reports the monthly provincial occupancy rate; the update is available monthly with a two-month lag. Hotel occupancy rate is the percentage of hotel rooms occupied during a specific time period, omitting rooms not available due to renovations or otherwise unavailable. Year-over-year point change (rather than percent change) is calculated.

Provincial Average Daily Room Rate

Published by CBRE Hotels in *Trends in the Hotel Industry National Market Report*, the data reports the monthly provincial average daily room rate; the update is available monthly with a two-month lag. Average daily room rate (ADR) is a statistical unit used to measure a hotel's pricing scale; the figure is derived by dividing actual total revenue for the period represented by the total number of occupied room nights.

Hotel Occupancy Rate by Community

Published by CBRE Hotels in *Trends in the Hotel Industry National Market Report*, the data reports occupancy rates for selected communities; the update is available monthly with a two-month lag.

Data Notes

Hotel occupancy rate is the percentage of hotel rooms occupied during a specific time period, omitting rooms not available due to renovations or otherwise unavailable. Year-over-year point change (rather than percent change) is calculated.

Average Daily Room Rate by Community

Published by CBRE Hotels in *Trends in the Hotel Industry National Market Report*, the data reports the average daily room rates for selected communities; the update is available monthly with a two-month lag. Average daily room rate (ADR) is a statistical unit used to measure a hotel's pricing scale; the figure is derived by dividing actual total revenue for the period represented by the total number of occupied room nights.

Transportation Indicators

Air Capacity to YVR by Different Origin

Provided by Vancouver International Airport, the data reports total non-stop air capacity in one direction to YVR each month by region of origin. Monthly data are forecasted annually and are updated bi-annually. Notification of forecasted data will be noted on table.

Passenger Volume to YVR by Different Origin

Provided by the Vancouver International Airport, the data reports the total enplaned and deplaned passengers at YVR each month by country/region of origin; the update is available monthly.

Passenger Volume to Regional Airports

Provided by individual airports, the data reports the total enplaned and deplaned passengers each month; the update is available monthly.

BC Ferries Passenger Volume

Provided by BC Ferries, the data reports the total passenger volume on all routes each month; the update is available monthly. Please note that year-to-date (YTD) totals on the BC Ferries website will be different from those reported in the Tourism

Indicators, as BC Ferries reports passenger volume on a fiscal year and the Tourism Indicators reports passenger volume on a calendar year.

Cruise Passenger Volume

Provided by Cruise BC, the data reports the total volume of revenue passengers to BC each month; the update is available monthly during cruise ship season (April-October). Cruise revenue passengers include paying passengers embarking or disembarking from a single port.

Highway Traffic Volume

Provided by the British Columbia Ministry of Transportation, the data reports traffic volumes on selected routes within the province each month; the update is available quarterly based on a calendar year (e.g. Q1 means January to March). Highway traffic volume is a basic element of traffic data and is the aggregation of traffic-count data from one or more counters that describes the volume of traffic that has passed a known point or cross section of the roadway during a defined time.
